

T1000 SERIES

T1000 ELITE COMBAT WINCHES

The T1000 Series Winches are built specifically for military use, able to withstand extreme climates and temperatures. Features include hardened 3 stage planetary gears for reliable and efficient use in the harshest environments. The waterproof remote control has thermometric LED indicators signals to monitor the temperature of the motor and high temp lithium grease is used which doesn't solidify in extreme climates. Coupled with corrosion & chemical resistant matte black powder coat and a stainless steel fairlead makes this a formidable winch able to withstand whatever is thrown at it.
